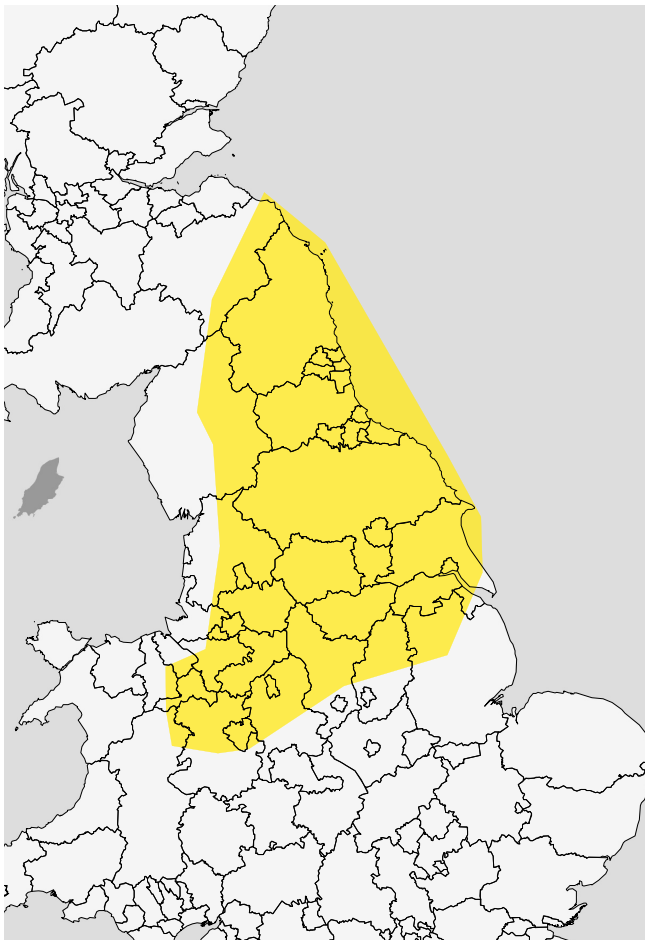
Yellow warning
Thunderstorm

Between
10:00 Thu 9 Sep 2021 and
23:00 Thu 9 Sep 2021



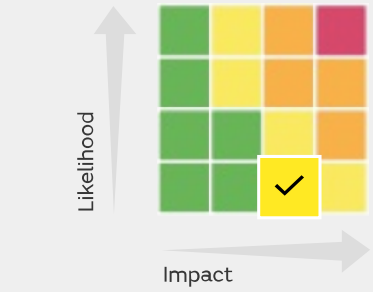
Further heavy showers and thunderstorms are expected through Thursday evening and may cause flooding in a few places and travel disruption.

What to expect

- There is a small chance that homes and businesses could be flooded quickly, with damage to some buildings from floodwater, lightning strikes, hail or strong winds
- Where flooding or lightning strikes occur, there is a chance of delays and some cancellations to train and bus services
- Spray and sudden flooding could lead to difficult driving conditions and some road closures
- There is a small chance that some rural communities could temporarily become cut off by flooded roads

Further details

Heavy showers and thunderstorms are expected to continue affect the area through this evening before slow decaying towards midnight. Whilst many areas will miss the most intense storms, torrential downpours are likely in a few places. Where these occur, there is potential for 20 to 30 mm of rain in less than an hour and up to 40 mm in 2 hours. This will have the potential to generate surface water flooding, especially if it falls over an urban area.



Very low likelihood of medium impacts
